

Global Connection and Exchange (GCE) Program Afghan and American Pre-College Institute Moini International Consulting (MIC)

Reporting Person: Abdul Qaum Almas
GCE Program Director, Afghanistan
Reporting Period: June 1 – July 31, 2010

Past Two Month Accomplishments:

The Global Connection and Exchange Program new students received 28 days computer and Internet basic training to enable them to communicate effectively with US students under GCE program objectives. The program provides computer and Internet access to the students here in Jalalabad to work on collaborative projects with the US students.

GCE Project students actively take part in Face book, Ning, Internet sites discussions and other educational and social networks. GCE students communication is based on the monthly topics, they received from the US GCE team. All students who have been participating in GCE Program usually attend first 28 days training (pre-course), meanwhile they receiving comprehensive training and learning materials to become fully acquainted with thought programs. By the time the students learned basic computer programs and become acquainted with educational and social online networks, and then further training is provided by GCE IT trainers to fully acquaint them with ICT technology.

GCE program has been in progress perfectly in the following Schools:

1. College of Education Training Center (CETC)
2. Rotary boys & girls High School

4. Wazeer Mohammed Gul Khan boys & Girls High School
5. Bi Bi Aisha Girls High School
6. Abdul Wakil boys High School
7. Bi Bi Mariam Girls High School
8. Professional Institute of Agricultural
9. Professional Institute of Technical
10. Mia Omer High School

With the collaboration of Nangarhar Education Directorate and Education Faculty of Nangarhar University, The Internet connection speed in GCE sites has been upgraded to 1Mb except of Bi Bi Maryam High school.

College of Education Training Center (CETC): twenty one '21' computers were connected with 2 Mbps bandwidth Internet Connection speed. three '2' girls from Bi Bi Hawa girls high school, '12' boys from Chicknawri High School, 31 boy students and 11 girls from Tajrobawi Boys High School, three '4' boy students from Shaheed Muhammad Arif School and 25 Male students and 2 female students from Education Faculty of Nangarhar University participated in GCE Program in eight sessions, from 7:00 Am-2:00 Pm, Saturday till Thursday. Total 87 students were enrolled in GCE program in this reported period in CETC computer lab:

1. Bi Bi Hawa Girls High School
2. Naazoo Anna Girls High School
3. Tajrobavie Girls High School
4. Chicknoawri Boys High School
5. Tajrobavie Boys High School
6. Shaheed Mohammad Arif Boys High School
7. Education Faculty female Students
8. Education Faculty Male Students

- **Rotary High School:** 08 computers were connected via Wi-Max with 1Mbps bandwidth speed, 48 Boy and 24 girl students joining GCE program in both June & July month in seven sessions, 4 classes for boys and 3 classes for girls, they attend classes from 07:00 Am- 2:00 PM, Saturday till Sunday.

- **Bi Bi Zainab Girls High School:** 20 computers were connected via Wi-MAX device now upgraded to 1Mbps bandwidth speed, Total 58 in June & 57 in July girls students from Bi Bi Zainab girls High School were enrolled in GCE program, they attend classes from 7:00 Am-02:00PM, Saturday till Sunday.

- **Mia Omar High School:** 10 computers were connected via Wi-MAX device Upgraded to 1Mbps bandwidth speed, 36 male students joining GCE program in both June and July month ; they attend classes from 7:00 Am- 2:00 PM, Monday till Tuesday, .

- **Bi Bi Aysha Girls High School:** 15 computers were connected via Wi-MAX device with 1 Mbps bandwidth speed, 67 in June & 71 in July girls' students joining GCE program at 8 sessions, they attend classes from 7:00 Am- 2:00 PM, Saturday till Sunday,

- **Abdul Wakil High School:** 10 computers were connected via Wi-MAX device upgraded to 1Mbps bandwidth speed, in total 62 in June & 60 in June male students are joining GCE program , they attend classes from 7:00 Am- 2:00 PM, Monday till Tuesday, in total 62 students participated from Abdul Wakil School in GCE program at the reported month.

- **Bi Bi Maryam Girls High School:** 08 computers, one projector along with screen, a scanner, and a printer including other required equipments in Bi Bi Maryam Girl High school which is located in Daruanta, 40 girl students in both June and July month are joining GCE program, the classes are opening from 7:00 PM- 2:00 PM, Saturday up to Sunday, Totally 40 students participated from Bi Bi Maryam High School during the reported period. The lab will connect with Internet Connection soon in the future.

- **Wazeer Muhammad Gull Khan Girls & Boys high school:** 20 desktop Pentium 4 high quality computers were connected to the Internet Connection in the mentioned computer Lab. 38 female students & 35 male students t Join GCE program in both June & July month from 07:00 AM to 2:00 PM Saturday till Monday.

GCE staff had an online video conference call with Mom Fary Moini

On June 1st, 2010 our all GCE Male staff had an online video conference call with Respected Fary MOINI in GCE office, they all shared their nice ideas with Mom Fary, the main discussion was bout the summer plan our all staff decided to do more and more struggle for GCE program, Fary Moini appreciated our GCE program members, she gave some nice and positive tips for the betterment of GCE program, at this she faced with three new teachers Shohab from Mia Omer High School, Hidayat from Agricultural High School and Wajohullah from Technical High School. The conference call ended happily and all the GCE staff was happy from Fary Moini and each others.

GCE Afghanistan Male Students Celebrated the Mother's day

On June 14, 2010 GCEP male students held an event for Mother's day. The GCEP Country director Abdul Qaum Almas, IT Coordinator and all IT Trainers, education department acting director, school principle and school teachers participated in this lovely event.

Mr. Almas briefed the mother's values in our lives and said that the Mother's Day is an occasion when individuals express their loves and respects that they have for their mothers. It's time to pamper her for all she has done for us over the years. On Mother's Day you can tell your Mom that she will always be important to you all and that you will continue to love her for ever. One of GCE students Mr. Shoja presented his nice poems to the participants of the event; one of GCE male IT Trainers presented his prepared presentation about the mother. The event ended with a great environment and respected participants appreciated the GCE's unforgettable activities.

Mid Wifery Computer Lab setup

After completion of some setups we started the Midwifery setup, the GCE IT trainers brought a very new Wimax, Router, Switch, Cat6 Cables and some other necessary items, 1st Mr. Almas started the setup and checked net Cables, then the GCE IT Trainers carried on the work, this time we had two Labs setup one for doctors section and another for Nursing section, after hard working when the Trainers finished the setup the they installed fresh copies of windows Xp, then they installed Norton Antivirus 2010 and updated the software, the new open office were installed in each system and our IT Trainer Ziaurrehman guide them how to use the internet and taught them some good lessons of the internet.

Video conference call between US and GCE Afghanistan

On June 16, 2010, 7:00PM students from US. Had a video conference call with the GCE Afghanistan students. The start of the conference was introduction from US students. They introduce their selves (Jalissa, Orlando Smith, Tania, Junior, Paul, Mila and other) after that GCE Afghanistan Introduced their selves (Haroon Ahmadi, Ulfat Kazimi, Nasrat, Tamim, Ihsanullah, Zakir, Qais Ahmad, Abdul Aziz Shoja, Ezatullah and Nasir). Students from both sides asked and answered each other and Cynthia appreciated our students, then she congratulated Mr. Almas for his newly born son (Saboor).at the end the students from both sides promised each other for having such kinds of conference calls.

Charity Ceremonies Held in all GCE Lab

The charity ceremonies held in our all male and female schools GCEP computer lab.

The ceremonies started by reciting a few verses of the Holy Quran.

These charity ceremonies were for the betterment of the GCE Program in the future, the Schools principals, teachers, students; IT Trainers and CGE students participated in charity ceremonies.

Each male and female student was very happy performing such kinds of ceremonies the teachers and principals were really appreciated the CGE Team and they requested for doing more ceremonies in the future.

After finishing the Holy Quran's recitation, all teachers and students prayed together for having a bright future and successes for the CGE program.

Father's day celebrated for the first time ever in Jalalabad, Nangarhar, Afghanistan by GCE members

On June 20, 2010 a ceremony held for the father's day celebrations for the first time ever in all over Jalalabad, Nangarhar, Afghanistan.

Hundreds of GCE students celebrated father's day, students from Mia Omer High School, Abdul Wakil High School, Agricultural High School, Technical High School, Bi Bi Aisha girls High School, Bi Bi Zainab girls High School, Wazeer M.G.K, Rotary girls and boys High School, Students from CETC Lab and Medical School students celebrated the father's day in CETC Lab, included Country Director Mr. Almas and all IT Trainers..

The ceremony started with a few verse of Holy Quran, the Medical School IT Trainer explained the history of the father's day and shared his nice ideas with all the participants.

Students from all these labs presented their own written speeches and they explained their concepts about the fathers' rights. At the end all the participants appreciate the GCE Team for arranging such a beneficial ceremony.

The country director is briefing the Father's rights on the children

GCEP Summer English Teachers first ever online video conference with Marla

Creating Learner-Centered Classrooms Using Technology, the Summer Teacher Institute for this summer 2010 is already underway (July-August). The Institute follows a facilitated online model, including the following steps: 1. Master Teacher Marla Federe sends out the introduction to the lesson, which in most cases includes a PowerPoint presentation of key concepts, corresponding required readings, and study questions. 2. After reviewing and studying these documents, the Afghan teacher participants get together in a circle group meeting with the local facilitator (Almas Qaum) and discuss the study questions. 3. Once this is done, Marla conducts Skype conference calls with participants and facilitator. She leads the class from here, but Almas ensures that everyone gets an equal chance to speak. 4. Marla then assigns a follow-up application assignment, which the students submit to her directly. She reviews it, and give feedback to students from here. The cycle then repeats for the next topic. This Summer Series is intended for current high school classroom English teachers. GCEP IT Trainers are also encouraged to participate so that they can work with the classroom instructors to support the extension of classroom learning through the use of technology.

GCE Summer Activities Parents Meeting of GCE students

We are implementing the process of summer plan in our all GCE labs. It is extremely important to have good working relationships between parents and teachers. A parent is really the child's first teacher and critical to student success is the involvement of the parent. It is critical that both parent and teacher know that the goals for the child are indeed shared goals; both teacher and parent want what is best for the child/student

We discuss with parents the below activities:

Sending invitation card,
arranging the meeting hall,
Welcome parents at the door
and thank them for coming,
Briefing about GCE
activities, Parents comments
regarding their GCE students,
Principal, Teachers,
community elders share their
thoughts regarding GCE
project.

To help parents and teachers
communicate more
effectively. To learn how
parents and teachers have
different ways of achieving

the same goal. To let the parents know what special services will be available, and ask them to notify us if they'll require any kinds of services.

Participating of Round Table for the first time in GCE Sites

This Round Table is holding every week during summer.

Purpose of the round table:

Is to persuade students for joining information about the round table and students would be able to talk about any issue any where in this round table every week students talks on different issues as we talked this week about the upcoming parliament election as the students are youth so this round table will really help them to feel their responsibilities and to vote that candidate who really deserve this post.

Workshops held in our Labs about Narcotics and Drugs

According to summer activities the IT Trainers decided to arrange workshops against the drug users, now a days our youth are facing with drugs and many of them are using the Narcotics and drugs, the country director E-mailed to all the IT Trainers to arrange workshops about this issue, then the Trainers did workshops about the Narcotics and drugs, the students and the IT Trainers discussed the good and bad result of using drugs. And all the participants promised that they will guide the youth of the current generation and will avoid them using the drugs.

GCE Best Activities in Educational System

On July 6, 2010 WMGK High School GCE members held work shop about the GCE Program Best Activities in the Educational System and Communication until to denote to the society and spread and rise the sound that the GCE Program is the Non Profit, helping in the Educational and mind Expanding Programs, GCE IT trainers, School Principle, School Teachers and some School students participated in mentioned workshop, the IT presented his prepared presentation, he explained the GCE background to the participants, during his speech he told to the participants that at the

beginning the people had misunderstanding about GCE Program, when ever the youth entered in this Program and cleared the path of this program to their families then their families got impressed from GCE Program and they all appreciated the GCE Program and its staff. The **School Principle** briefed how to get the best education in our society and he advised the students not to waste their times. Then he said that GCE is the Program which shows the youth's in action to the society and familiarize the youth with the Technology and inform them from the world, at the end he increased about Small grant Projects of GCE Program for the Participants such as Water Tank, Trash bin, Painting, Plantation and environment cleaning then he mentioned Wazeer Muhammad Gull Khan High School's Water Tank Project which has been finished with success and managed the facility for the school students at the end he thanked to the people who took part in this work shop and persuaded the students and youth to take part in such kinds of workshops.

Parents Meeting held in all GCE Labs

In order to keep parents informed, schools must invite all parents of GCE students participating in programs and encourage them to attend their regular lessons, and this means all parents should be invited in each school, so they will realized why their sons and daughters are coming to the schools, when ever parents meet the teachers then the parents get informed from their children's abilities. Thus all GCE Program IT Trainers held the parents meeting in their labs, at

first the IT Trainers explained all the GCE activities and they requested the parents or the elders to join us always, during the meeting the parents discussed the GCE activities and they shared their respected ideas with the GCE IT Trainers and students. And they also encouraged and advised them and said not to waste your time. If the time passed it won't come back therefore we need to work hard in result we will get many successes in our lives, and we will stand by our own feet and serve for the humanity and society. At the parents appreciated the GCE Team and its hard working.

Video Show in Wakil High School GCE Computer lab

A Video show was held on July 11, 2010 at Abdul Wakil High School GCE computer lab. As we all know that the IT trainer Ziaurrehman always does his best for GCE Program, at this is time he did different job, he start working for his students English improving in video show. The purpose of this video show was to provide students with better English learning opportunities during summer vocations.

This program was a story to help students learn English it is a course with video Episodes each video episode has three parts with discussion session.

At first Mr. Ziaurrehman “Samsoor” IT trainer of Abdul Wakil High School talked about the worth and significance of English language and he presented information about the mentioned video program to the students.

Then the video show has played on projector-slide show to the students about 30 minutes after watching video students have discussed with each others about the several parts of the video and shared the main idea of the video show with each others.

Video Conference Call between CETC Female Students and Bibi Aisha Girls High School

On July 11- 2010 Sunday Morning at 8:00 am there was a video call between CETC Female students and Bibi Aisha girl High school.

The starting of the video call was introduction between each other, before introduction every one was impatiently looking forward to hear their friends name and to see their faces. After the introduction the communication discussion started, both side discussed their questions, first of all CETC students asked their questions and after that Bibi Aisha

students asked their question and both of them answered clearly the questions for each other, During the conference the students were really feeling happy seeing each other face to face, a student from CETC computer lab asked "I read all your comments but I didn't see you face to face now I am really happy to see you by my eyes and it's a great memo of my life" These students had relationship in Facebook and GCE Ning sites and they wanted to hold up a conference in order to meet each other face to face. The conference call ended at 9:30AM with a very good environment and they promised each other for having such kinds of conference calls in the future.

The TB Control program

On July 14/ 2010 the Agriculture and Technical Institutes held a workshop about the TB which is a common and often deadly infectious disease caused by various strains of mycobacterium, usually

Mycobacterium tuberculosis in humans. Tuberculosis usually attacks the lungs but can also affect other parts of the body. It is spread through the air, when people who have the disease cough, sneeze, or spit. Most infections in humans result in an asymptomatic, latent infection, and about one in ten latent infections eventually progresses to active disease, which, if left untreated, kills more than 50% of its victims. The workshop started with a few Verses of the Holy Quran, the IT Trainers from both Institutes presented their prepared presentation, and they deeply explained the mentioned disease, the Trainers guided the Participants how to keep their environments clean, when ever some one get involve in this decease he or she should urgently contact to the doctor, some of the students also shared their thoughts regarding the mentioned workshop they said that we will guide our all relatives and we hope that our society wont face this danger decease. At the end all the participants really appreciated and desired for such kinds of workshops.

Leadership Workshop

A workshop held in Bibi Zainab High School GCE lab about Leader and Leadership on 17,July, 2010 IT Trainer M.Arif Provided a great Presentation about Leader and its all functions, Kinds of leaders and many more the students really enjoyed they requested to have such workshop more about all those that they can help them.

LEADER

Leader is a person who inspires and influences people to reach a destination and to accomplish any task, or project and achieve goal.

LEADERSHIP

Leadership is the art of influencing others to performance their maximum to accomplish any task, objectives or project.

$L = f(l, f, s)$

L = Leadership

f = functions

l = leader

f = followers

s = situation

then she explained, Types of Leadership, Participative leader, Democratic Leader, Transactional Leader, Laissez-faire leader, Charismatic Leader, Transformational Leader and Traits

of Leader. At the end she asked the students and the students answered her, then all the students shared their ideas with each others and the workshop ended with a superior environment.

CETC computer lab held a workshop about HIV

On July 19, 2010 from 10:00 am till 1:00 Pm, students for summer activities held a workshop due to converse about the HIV and its bad result. As HIV is an update issue and many people involved with this illness we proud to find out why these people involved with this illness and how to protect people from this disease. The workshop started with some Verse of the Holy Quran, then the IT Trainer welcomed all the students to the workshop and explained the purposes of this workshop, after that all participants shared their ideas about HIV disease, when the students shared their idea for more information prepared presentation presented by (Ulfat Kazemi), He briefly explained "What are AIDS and HIV? The outlook from which we understand a person is involved with HIV, How HIV transfer from one person to another, how to deal

with this disease, How Youth could able to prevent their selves from this disease? And other important points" During the workshop presentation each student shared his idea about each slide, the students were as talented as they could talked in medically about this issue. During the workshop we divided the students into three groups to discuss all the points. As we know that most of the people involve with HIV from the barberry tools and as the barbers use different tools in their shops we encouraged our students to go to some barbers shops to check how the situation is? The students gave some information to the barbers and encourage them to be careful in these points. These activities encourage our youth that what are their responsibilities being youth in community and meanwhile they learned about more points. The workshop ended with a great environment and the IT Trainer thanked all the students for their thoughtful information, discussing and encouraged them to be active in their daily activities.

Workshop about plan

On July 21/2010 both Agriculture and technical students and IT Trainers participated in a workshop the workshop organized about plan.

Teachers and Students both presented some information in their prepared presentation and discussed the advantages of plan. First both IT Trainers presented some useful information about plan and mentioned the benefits of plan in daily life and then some students talked about plan and indicated

their views. Hameed Batoor said, Plan has many advantages one of the big benefit of plan is that it helps us in achieving our goals and targets. It means that we can easily achieve our targets. And also plan is one of the essential steps for the human activities and he added that it is better if every one has a plan and work through his or her plan. At the end of the workshop all students judged that plan is the door of Success and plan can eliminate every kind of problems.

GCEP Mia Omer High School Held a workshop why Youth are involving and engaging with drugs

On July 18, 2010, 8:30 am up to 10:00 am there was a workshop in Miaomer High School computer lab, the workshop was about (how to stop using the drugs and why Youth are involving with drugs) the workshop started by some Holy Verse of the Holy Quran, after that the IT Trainer Welcomed all students of the workshop and explained the purpose of the workshop, then presented all the slides of the presentation briefly to the students, the students were also sharing their ideas about issues and points during the workshop. The students shared their idea about each point, which were "Why Youth are involving with drugs? The conclusion and result of using the drugs, Islam and using of Drugs, How to stop using of drugs, how to encourage youth stopping drugs and make them persuasive taking the way of education? And other important points"

During the workshop there was a question discussion, the IT Trainer asked a question from the discussion and gave all the students five minutes for discussing with each others, after that the IT trainer let each one of them to share their ideas regarding the question. The IT trainer also asked a question, who can take a part in removing sadness from the families who are facing with narcotics, after that all students raised their hands and told we are all ready to bring happiness for our country and remove such bad things from our country. The workshop ended with good environment and all the students thanked their teacher for providing such workshops and they told we would love to have such workshops in the future due to improve our knowledge skills and to know which activities we have as youth.

HOW TO FIGHT AGAINST IGNORANCE

GCE WMGK H.S held a workshop on July 17, 2010 in the GCE computer Lab the purpose of this workshop was (**HOW TO FIGHT AGAINST IGNORANCE**) About this topic students brought more and meaningful information and distributed their minds and share their own concept about this issue

At first **IT Trainer of Wazeer Muhammad Gull Khan H.S** expressed his emotions about GCE Programs and told the students' ignorance is where someone or something is

uninformed. This should not be confused with being unintelligent, as one's level of intelligence and level of education or general awareness are not the same? Then he gave information about from which language this

Ignorance word has come he increased it's an adjective describing a person in the state of being unaware If you find yourself in an interracial friendship or relationship, there are many things you can do, to better understand another's culture. As your relationship strengthens, you may find yourself dealing with racism, but through communication, you may be better equipped to handle ignorance.

Then one of the GCE students Team Leader and new Representative

Nasser "Ahmad" explained his comments about this topic and increased it is not late yet lets get education and fight against ignorance and tear out the darkness of undulates then he present his presentation to the students in which displays the profit of education and loss of ignorance at the end he admire the GCE Program best activities in the education process and persuade the students to take part in the GCE daily plan and do more and at the end he thankful from the guest some students invited their elder brothers and they promised we are stand with GCE Program Shoulder by Shoulder then some other students talked about the betterment of education and loss of Ignorance the workshop end with some verse of Holy Quran.

How to keep environment clean?

On July 21, 2010 The Bi Bi Aisha Girls' High GCE students including IT Trainer held a workshop (How to Keep Environment Clean).The environment is our surroundings. There are trees, plants, flowers, waterfalls, forests, mountains, water etc. every people can't live without this environment and all of us want this environment to spend our

lives, so we get many things from environment, for example water, trees, air etc. if we clean this surroundings all of us can be healthy and strong live, so we must clean our environment, but today's populations are increasing, Many people put garbage to the water and some people when they eat on the ways then they throw the garbage on Road sides, so we decide not to pollute the environment, these pollutions cause many kinds of diseases. When environment is being polluted so, everyone has only one question on his / her lips and mind, how to save environment from being polluted. How to protect earth from disaster? The strongest way to protect environment is to keep plants and trees. Trees are one of the main creations of The Almighty Allah that play an important role to keep air clean. If there will be no fresh air available then how will human beings, animal, and birds be alive? Therefore, many big organizations, schools, and colleges are taking initiatives to save trees for a better future, clean air, and unpolluted environment, in short healthy life for living objects. The IT Trainer discussed regarding selected topic that how to keep and safe our environment clean and every students shared their thoughts and discussed with each others, During the workshop a presentation presented by the IT Trainer of Bi Bi Aisha High School, students learned a lot from this presentation, the students wished that they will have such interesting workshops in the future for the improvement and awareness of these students,

A workshop, How to Keep Clean Our Environment Held at Rotary High school

On July 19th 2010 at 10:00 am a workshop seized at Rotary High School. IT trainer Fazlullah Sadiq prepared a superb presentation for Rotary High School GCE students.

At first Fazlullah Sadiq explained the presentation, in which information and pictures were included about, how to keep clean our environment, Fazlullah enhanced that health is the fewer of Allah and we must take care of health, if we have good health we can learn, teach and can help others, if we have health disease, so we can't, learn , teach and we will have the problem for other members of our house and society, so we must advise to others and we guide our society members to keep clean the environment.

Fazlullah Sadiq showed the pictures of those people who have cleaned the environment they are healthful and stronger and are those who don't have clean environment, so they are always sick and unpleasant. Then Rotary GCE students talked number by number about that topic

At the end whole Rotary team got out and informed other people for cleaning their environment and explained them the benefits.

GCE Program Representatives Meeting

On July 21, Afghanistan Project Director, Abdul Qayum Almas, met with seven GCE Student Council members for the first time to discuss the Council's role and responsibilities. Congratulating the winners, Mr. Almas briefed them on recent activities

and encouraged them to hold meetings at their schools to garner new ideas and find solutions to challenging issues. Unprecedented in Jalalabad society, high school Council member sand their alternates were elected through an open, democratic process – nominations and elections were completed entirely online. Those interested in serving on the Council responded to three questions that focused on

motivation, character qualities and creativity. After reading the responses, students from each school submitted their votes through an online poll and elected one representative and an alternate from each school. Due to security and social concerns, Mr. Almas will meet with female representatives separately.

An Aid Box Opening Ceremony Held on July 25, 2010 in the WMGK H.S GCE Computer Lab

The purpose of this opening was that GCE Program is one of the Educational, Communication Program which attract the students for online learning programs and support the Afghanistan Youths specially youths of Nangarhar Province Jalalabad city and makes the facilities and opportunities for the students to learn via of Internet and modern Technologies and find out the chances for students communicate as online with outdoor students until share their ideas with each other to talk about the daily Issues and Topics and has been managed more facilities for the students in Jalalabad there fore GCE WMGK high school students decided to make an (Aid Box) which is useable at the time of emergency or other types of small working, by making of workshops, parents meeting and repairing damage apparatus of school, Ceremonies and in the GCE Computer Lab.

At the beginning IT Trainer “Hamdard” and Academic assistance of Wazeer Muhammad Gull Khan High School put money in the AID BOX then Representative and other students by line put their money in the treasure.

At first Mr. “Hamdard” IT Trainer of WMGK high school appreciated the students and showed his pleasure by making of an AID BOX he told in his speech to the students this is

the available step which shows the youth feels and love with GCE programs and gave

more information for the promoting of GCE programs and motivate the students to take part like this kind of best activities in make workshops and conferences by different Issues and told the students GCE is stand behind up yours this available step is going to bring efficient changes in the GCE Programs and this step will be inspire All the GCE students to make and do best activities at the end he thankful from the active students and promised we will keep on this kind best activities too if God is willing in the subsequence .

Workshop of Planning Held in Bibi Zainb high school GCE Computer Lab

Bibi Zainab High school Held a workshop about planning strategies and Functions in an office or Vast Businesses and the workshop presentation was presented and prepared by the council candidate Nadia Usafzai, 26, 7, 2010, Monday at 9:00am and these are the issues about planning she mentioned

DEFINITION AND KINDS OF PLANNING

Kinds of Planning:

1. Strategic planning/long term Planning
2. Tactical planning/medium term Planning
3. Operational planning/short term Planning

PLANNING AND PERFORMANCE

To enhance performance we make planning and to increase quality with less cost we struggles for higher performance for which planning is needed. Weak Planning +Good Implementation=Weak performance
Good Planning+ Weak implementation= Weak Performance

PURPOSES OF PLANNING

1. Provides direction
2. Reduces Uncertainty and Risk

3. Planning reduces wasteful activities.
4. Minimizes Mistakes
5. Provide standards for controlling
6. Performance can be improved.

Education is the source of promotion

On July 26th 2010 Rotary High school made a workshop, education is the source of promotion. Rotary High school GCE IT trainer Fazlullah Sadiq prepared a good presentation about that topic, much information was included in presentation.

At first Fazlullah Sadiq explain the presentation and showed many example of educated people that they got education and then they promoted.

Fazlullah increased that are those who have education mean they have eyes they know each wrights, they are polite friendlier, honorable and helpful with others they are the people who promoted their country.

And are those who don't have any education they are backward people, their countries are backward and their lives are backward, so education is incumbent on men and women

In edition Rotary GCE students talked number by number and they talked about the benefits of education and gave many examples.

At the end GCE IT trainer Fazlullah Sadiq stressed on students that they must get education and don't waste their time.

He talked about the facilities that the GCE gave to whole students and he told that we should never forget these facilities, cooperation and keen love from Mom Fary Moini, Steven brown and respected teacher Abdul Qaum Almas, long live for us and for them.

GCEP Mia Omer High School Held a workshop (let's keep our environment safe and clean)

On July 27, 2010, 10:00 am till 12:00 pm there was a workshop in Mia Omer High School computer lab, the workshop was about keeping environment safe and clean, the workshop started by a few Holy Verse of the Holy Quran, after that the IT Trainer Welcomed all students to the workshop and explained the purpose of the workshop, then explained all the slides of the presentation briefly to the students, the students were also sharing their ideas about issues and points during the workshop.

During the workshop there was a question discussion, the IT Trainer asked a question for the discussion and let all students five minutes for discussing with each others after that the IT trainer let each one of them to share their ideas about the question.

During the workshop the IT Trainer encouraged the students for keeping clean environment he take

out all the students to the school area and he cleaned up all area by them, the students were taking the papers and put it in to the Trashcan, the IT Trainer also sent some students to the community for giving information about keeping environment safe and clean, from these activities the students got how to keep environment safe

and clean and meanwhile they understand which activities and responsibilities they have in the community .The workshop ended with a very good arranges and all the students thanked their teacher for providing such workshops and they told we would

love to have such workshops in the future due to improve our knowledge skill and to know which activities we have as youth.

Workshop about Polio

GCE program has special purpose and aim which is consist from cooperating with each others in society that how can we do services for people and countrymen because they have rights of serving on us and we should take care of them because we are young's and young's are energetic, fresh minded and they are the supporters of a society. on July,28,2010 in both Agriculture and Technical Institutes a workshop held and was about polio which is extremely dangerous for all and it is incurable disease if we don't pay attention to this dangerous sickness it will bring many sorrows to our society

therefore we held this workshop for this important issue, first of all both computer lab IT trainers presented some information about Polio then students shared their information with each others and discussed the way how we can realize people about polio, all

participants promised that we will preach everywhere about this and if we find anyone we will definitely cooperate and help him/ her.

At the end all participants were so happy from this workshop and prayed together may Allah secure all human from every kind of diseases.

..... End
